INTRODUCTION

Process for Feedback

This Draft Area Drug and Alcohol Plan is provided to people who participated in Area Drug and Alcohol Planning in the East Metropolitan Health Region and to other key stakeholders in the Region.

This Plan was developed based on:

- Local information collected during the consultation period in November 2002;
- Subsequent information collected since that consultation;
- Information on the current and planned actions of the Drug and Alcohol Office (DAO) to provide support for recommended strategies;
- Information on current and planned alcohol and drug related strategies of the major WA government departments, e.g. Department of Community Development, WA Police Service, Department of Health, Department of Justice, Department of Indigenous Affairs, Department of Housing and Works, Department of Education and Training (see Agency Plans below).

Feedback from you as a stakeholder and participant in the consultations is keenly sought by DAO. Have we “got it right”? If not what suggestions have you for improving this Plan? How best can we bring about agreement on local responses and the mechanisms for implementation? Are there existing groups/organisations/individuals in the Area who are the natural lead players to coordinate the local action? Roles and responsibilities, monitoring and reporting and timeframes also need to be considered.

Local input is critical to the success of this process of Area Planning which ultimately aims to improve services and programs for people affected by alcohol and drug problems in your Area. DAO encourages constructive feedback to enable collaborative action to achieve this goal. Please provide any feedback on the Area Drug and Alcohol Plan by **Monday 16 June** to:

<p>Kathryn Kerry: Manager Planning and Coordination Drug and Alcohol Office, 7 Field Street, Mount Lawley WA 6050 Phone: (08) 9370 0310 or mailto:kathryn.kerry@health.wa.gov.au</p>
--

Background

Area Drug and Alcohol Planning is a key component of the *WA Drug and Alcohol Strategy 2002-2005* which was developed from recommendations of the Community Drug Summit held in August 2001. The Strategy has identified new priorities, including a greater focus on prevention and early intervention, and a need for current services to be improved to meet the needs of people affected by alcohol and drug related problems.

Area Drug and Alcohol Planning is being facilitated by the Planning Team at the DAO. This process is the first stage in assisting and supporting regional and area agencies to identify priority areas for the development of local strategies for improvement of programs and services to benefit clients and the community. The Planning process also links in with a significant number of other National and State strategies.

The first phase of the planning involved the circulation of a Discussion Paper and pre-consultation through contacts and the provision of information. The next phase of the consultation involved regional visits. Consultation meetings were held where topics such as drugs of concern, key issues, gaps, duplications and priority areas were discussed. From 18 November to 2 December 2002 the DAO Planning Team consulted with 91 people from the East Metropolitan Health Region. Information was collected, analysed and presented in a Draft Report, which was sent for comment in December 2002. Feedback was received from 5 participants (5.5%), which was integrated into the Final Report: Area Drug and Alcohol Planning Consultation, East Metropolitan Health Region December 2002.

Agency Plans

In parallel to the process of Area Drug and Alcohol Planning, DAO has worked with government agencies in the development of a cross sectoral response through government Agency Drug and Alcohol Action Plans. This has been a complex across-government exercise which has not been attempted before in relation to drug and alcohol issues. Key government departments have worked together in this collaborative first step in improving programs and services to their clients through the recognition of, and planning towards a systemic approach across these range of government agencies. The Agency Plans outline the commitments and directions of key Government Departments in the overall drug and alcohol strategy. These Agency Plans will play a significant part in guiding local government department responses to better integrated services.

The key directions of all government departments who have submitted their own *draft Drug and Alcohol Plans* are outlined in Appendix 1. These are due to be finalised and endorsed by government in early June 2003. To access the detailed action statements relevant to each key direction, the Agency Plans will be available on the DAO website: www.dao.health.wa.gov.au from mid June 2003.

Issues Beyond Drug and Alcohol Office Responsibility

There were many issues raised during the consultations that are beyond the responsibility of DAO, such as:

- Limited youth services available and lack of recognition/funding to issue of transient youth (particularly hard to engage);
- Lack of recreational alternatives for youth and a need to involve young people more in youth services;
- Growing antagonism between retailers and youth;
- Social breakdown issues: institutionalised children, sexual abuse, absent fathers, lack of opportunities;
- Perception of a lack of a mental health system that works to support agencies and the community; and
- Problems with access to PET (Psychiatric Emergency Team).

Whilst these issues will not be included in this Plan, some are being addressed through the government's response to The Gordon Inquiry, the Homelessness Taskforce, and the Early Years Taskforce. Furthermore where appropriate, these issues will be fed back to the Cabinet Standing Committee on Social Policy which is made up of the Ministers from key human services departments.

Regional Context

The boundary of the Eastern Metropolitan Health region is defined by the area within the Swan, Kalamunda, Bentley, and Inner City Health Services. The population of this area was estimated to be 463,912 in 2001. Swan (2%) and Bentley (1.7%) health service areas have higher proportions of Aboriginal and Torres Strait Islander people than the metropolitan area (1.4%) as a whole.

The issues concerning drug use in the East Metropolitan Area are complex and figures from the draft Metropolitan profile indicate that alcohol, amphetamines and cannabis account for 64% of admissions to non-residential services and alcohol and amphetamines accounted for 83% of residential admissions between 1985 and 2001. The perception of alcohol as a primary drug use issue is supported by the 2001 mean cost of alcohol-related hospitalisation for the East Metropolitan Area, which was \$18.59 per capita. This is 1.09 times higher than the mean State rate of \$17.01. Poly-drug use, injecting Subutex (Buprenorphine) as well as solvents/inhalants contribute to the complexity of the drug use problem in this Area. The mean cost of other drug-related hospitalisation for 2001 in the East Metropolitan Area, was \$6.07 per capita, which was 0.14 times higher than the mean State rate of \$5.33.

Current Funded AOD Related Activity in the Metropolitan Health Region

Funding information specifically for the East Metropolitan Health Region is currently unavailable. However, the current funding of Alcohol and Other Drug related programs and services for the entire Metropolitan Health Region is approximate \$12,810,000. This includes recurrent funding from the State, COAG and Office of Aboriginal Health and accounts for 3 Sobering-Up Centres, practice development, prevention and treatment and support activities.

Current Drug and Alcohol Office Activity in the Metropolitan Health Region

The DAO currently provides a range of key programs and activities statewide which are summarised in Appendix 2. Specific to the Metropolitan Health Region and in addition to those activities DAO is involved with:

- East Metro Accords revision (advisory/funding);
- Structural support at wine festivals (eg policy development);
- Gosnells/Armadale Alcohol project;
- Mandurah – collaboratively developing local government alcohol policies/management plan;
- Fremantle street drinking project;
- Northbridge street drinking project;
- WA Network of Alcohol and Drug Agencies (WANADA) – calendar of training events for WANADA members;
- Department of Justice (DoJ) – Prison Officer Training (Wooroloo);
- Mental Health – Keyworker training (North metro), training (Joondalup, South West Metro);
- Post Graduate Program;
- Accreditation Steering Group – accreditation template for AOD sector;
- Department of Community Development (DCD) – CSTC training (Mandurah and Perth); Foundation training;
- Brief Intervention – Bentley Health Service;

- Family Court – providing consultation regarding the effects of drug use on families to assist in the development of therapeutic jurisprudence strategies and responses;
- Volunteer Counsellor Training Program;
- Enhanced access to Clinical Services through South Metropolitan CDST; and
- Comorbidity project by Osborne Division of General Practice.

Current Department for Community Development Initiatives in the East Metropolitan Health Region

The DCD is implementing a range of initiatives in the East Metropolitan Health Region.

A range of statewide and regional initiatives to protect children and support Aboriginal families and communities will be implemented in response to the recommendations of the Gordon Inquiry. Specific regional initiatives include:

- Expanding the Strong Families initiative statewide to provide an interagency collaborative case management approach to children and families at risk;
- Designating a Strong Families co-ordinator to be located in the Perth area; and
- Appointing an additional child protection worker to the East Metropolitan Area who will be a person of Aboriginal and Torres Strait Islander descent.

The DCD has also commenced a New Best Beginnings early intervention service at Armadale/Kelmscott which will soon be followed by an Aboriginal Early Years Service in the near future at Armadale.

As part of the DCD's response to the recommendations of the WA Homelessness Taskforce, the following local initiatives will be implemented to prevent homelessness and to assist those experiencing homelessness:

- A new support and advocacy service for people in private rental accommodation will be established in both Midland and Bentley to cover surrounding areas;
- A new service located in Perth to provide support to young people leaving care in the metropolitan area and Statewide with the exception of the Lower South West, Peel and Rockingham; and
- Pro-rated funding to five agencies which provide supported accommodation to young parents, including the Victoria Park Youth Accommodation Service, to support young people who are parents living in youth supported accommodation services in the metropolitan area.

Summary of the Draft Area Drug and Alcohol Plan for the East Metropolitan Health Area

The Draft Area Drug and Alcohol Plan for the East Metropolitan Area has three identified priority areas. These are:

- System Coordination and Integration;
- Addressing Harmful and Hazardous Alcohol Use; and
- Enhancing Access to Treatment and Support Services.

These are also the priority areas adopted by DAO as a result of the Statewide planning process undertaken in 2002. They are consistent with the main issues identified across the State as well as in the East Metropolitan Area.

Under each of these priority areas are a number of strategies which have been identified as a result of the Area Planning process in the East Metropolitan area. In the draft Plan the DAO response has been outlined. The initiatives outlined below are statewide services or specific to regions as stated in the relevant agency plan. Appendix 1 should be read in conjunction with the agency plan produced by the relevant department.

It is envisaged that the “Local Response” will be developed as the next phase of Area Planning, following your feedback. These Area Plans are action oriented and as working documents will be updated on a six-monthly basis as the implementation phase progresses.

DRAFT East Metropolitan Health Region Area Drug and Alcohol Plan

Priority Area: SYSTEM CO-ORDINATION AND INTEGRATION	
STRATEGY 1: Develop and implement mechanisms for improved collaboration, partnerships and coordination across agencies providing services to people affected by AOD problems across the East Metropolitan Health Service.	
BACKGROUND: National and State Drug and Alcohol Strategies, and WA models for Treatment and Support and Prevention are based on the principles of integration and coordination of services and development of collaborative and partnership models. The need for improved ways of working together were also identified at the Community Drug Summit in recommendations 9, 26, 30, 32 and 34 and in the East Metropolitan Area Planning consultation.	
Drug and Alcohol Office Response	Local Response
<ol style="list-style-type: none"> 1. Actively work towards enhancement of pathways of care and case management models for clients with alcohol and drug problems through: <ul style="list-style-type: none"> • Implementation of the Department of Justice (DoJ), Department of Community Development (DCD), Department of Health (DoH) and other 'Agency' Drug and Alcohol Plans. • Contribution to the development of, and where indicated, provide relevant workforce and organisational development initiatives on shared care models. 2. Develop best practice indicators for operational and clinical governance of AOD treatment programs. 3. Facilitate partnerships and collaborate with other agencies and service providers through co-location options and MOUs' where appropriate. 4. Provide support for AOD service delivery through Next Step. 5. Reflect system coordination and integration in Service Agreements with funded agencies in the region. 	

Priority Area: SYSTEM CO-ORDINATION AND INTEGRATION	
STRATEGY 2: Review school drug programs and address duplication and gaps in provision of drug education in schools.	
BACKGROUND: Recommendation 24 of the Community Drug Summit supports a comprehensive, evidence based and culturally relevant school drug education program. The Area Drug and Alcohol Planning consultation also identified there is a need for greater consistency and clarification in the provision of school drug education.	
Drug and Alcohol Office Response	Local Response
<ol style="list-style-type: none"> 1. Facilitate development of a strategic approach to drug education for school aged children with relevant stakeholders (eg. Department of Education and Training (DoET), School Drug Education Project (SDEP), Western Australian Police Service (WAPS), etc). 2. Coordinate review of School Drug Education Project (SDEP). 3. Clarify the role of and support key stakeholders in providing evidenced based prevention and education services in schools. 	

Priority Area: SYSTEM CO-ORDINATION AND INTEGRATION	
STRATEGY 3: Improve AOD and Mental Health Services response to people with comorbid conditions.	
BACKGROUND: Recommendation 31 from the Community Drug Summit states that Mental Health and AOD agencies should be resourced to develop workable partnerships to deal with persons presenting with both drug and mental health problems to ensure they receive immediate, accessible, accountable and culturally appropriate service with continuity of care. The need for greater coordination between the AOD sector and Mental Health was reflected in the Area Drug and Alcohol consultations in the East Metropolitan Health Area.	
Drug and Alcohol Office Response	Local Response
<ol style="list-style-type: none"> 1. Assist with the development of common protocols and linkages between drug and alcohol and mental health services. 2. Development of Alcohol, Drug and Psychiatric Treatment (ADAPT) program in conjunction with Office of Mental Health and other relevant stakeholders. 3. With Planning and Coordination Unit further develop ADAPT strategies based on regional consultations. 4. Re-configure service agreements to reflect the responsibilities of funded agencies to improve collaboration and partnerships across AOD and Mental Health agencies. 5. Clarify and facilitate roles and relationships where they do not exist between AOD and Mental Health agencies. 	

Priority Area: ADDRESSING HAZARDOUS AND HARMFUL ALCOHOL USE	
STRATEGY 1: Early intervention, prevention and parenting education.	
BACKGROUND: In recommendations 3, 9 and 22 of the Community Drug Summit, the Government commits to strengthening and coordinating existing prevention and early intervention policies and strategies and commits DAO to lead planning and coordination of drug prevention and early intervention activity in the community. Recommendations 15 and 25 refer to providing appropriate family support and developing positive parenting skills.	
Drug and Alcohol Office Response	Local Response
<ol style="list-style-type: none"> 1. Development and implementation of WA Alcohol Strategy with key partners where appropriate. 2. Development of Discussion Paper for AOD sector: Contribution to Integrated Early Intervention Strategies. 3. Review and coordinate parent alcohol and drug education initiatives. 4. Continue to support and develop early intervention, prevention and parenting initiatives (eg. In Touch, Parent Drug Information Service (PDIS), Family Sensitive Practice Project). 5. Next Step to investigate the possibility of other agencies accessing their consultant psychiatrist for advice on family sensitive practice. 6. Consult with key stakeholders to implement evidence based alcohol prevention strategies in identified local areas (eg Midland, Northbridge), including alcohol availability, harm reduction, regulation and enforcement. 	

Priority Area: ADDRESSING HAZARDOUS AND HARMFUL ALCOHOL USE	
STRATEGY 2: Reduce hazardous and harmful alcohol use.	
BACKGROUND: Alcohol misuse is second only to tobacco as a preventable cause of death and hospitalisation in Australia. Harm caused by excessive alcohol consumption accounts for 4.9 per cent of the total disease burden in Australia. Alcohol related harm can be reduced through the use of a range of legislative and regulatory arrangements which control the availability and use of alcohol products. This is a Key Strategy within the National Alcohol Strategy.	
Drug and Alcohol Office Response	Local Response
<ol style="list-style-type: none"> 1. Development and implementation of WA Alcohol Strategy with key partners where appropriate. 2. Continue to resource a range of prevention, treatment and support services including CDSTs, other NGOs and Next Step to provide services to people with alcohol related problems. 3. Continue to resource and review the utilisation of Sobering Up Centres in the context of the management of intoxication consistent with a systems approach. 4. Continue involvement with Alcohol Accords in conjunction with key stakeholders such as the WA Police Service. 	

Priority Area: ENHANCING ACCESS TO TREATMENT AND SUPPORT SERVICES	
STRATEGY 1: Enhance access to treatment and support services for youth.	
BACKGROUND: Recommendations 6-10 of the Community Drug Summit specifically targeted youth as a priority particularly in relation to Support and Treatment Services, social and recreational needs, education, prevention, early intervention and accommodation. The need for community support and a coordinated approach to youth activities was highlighted as a priority in the Wheatbelt Area Drug and Alcohol Planning consultations.	
Drug and Alcohol Office Response	Local Response
<ol style="list-style-type: none"> 1. Continue to provide specialist services to youth through CDSTs. 2. Review Next Step Youth Service. 3. Review the School Drug Education Project (SDEP). 4. Continue to provide support to the In Touch program. 5. Support community AOD initiatives (eg. Local Drug Action Groups (LDAGs)). 6. Review and facilitate where appropriate, involvement in youth engagement in the community. 7. Provide training to workers with youth clientele and contribute to Training Modules for Frontline Workers: Working with Young People. 8. Establish and implement Volatile Substance Program. 9. Develop new youth detoxification and respite service. 	

Priority Area: ENHANCING ACCESS TO TREATMENT AND SUPPORT SERVICES	
STRATEGY 2: Increased access for outlying areas and Indigenous people and their communities.	
BACKGROUND: Identified as a priority by Area planning consultations. The National Alcohol Strategy (2001 to 2003-04) also identified access to and availability of specialist services as priorities.	
Drug and Alcohol Office Response	Local Response
<ol style="list-style-type: none"> 1. To work with the East Metropolitan Drug and Alcohol Clinic and other AOD services in the region on reviewing potential service gaps and/or access issues for outlying areas (eg. Bullsbrook and Mundaring) and investigate potential solutions. 2. Develop, monitor and implement Indigenous Trainees Program. 3. Contribute to developing the workforce expertise of people who respond to Indigenous people who are affected by alcohol and drug problems i.e. Indigenous Trainees Program. 4. Placement of indigenous trainees in AOD and other health services. 5. Progress indigenous element of the Diversion program in conjunction with key stakeholders such as the WA Police Service. 6. Work in partnership with Indigenous AOD/Health service providers to support their efforts. 7. Work with Office of Aboriginal and Torres Strait Islanders (OATSI) & Office of Aboriginal Health (OAH) to develop options for residential rehabilitation and follow-up. 	

APPENDIX 1

SUMMARY OF OTHER GOVERNMENT DEPARTMENT KEY INITIATIVES

The initiatives outlined below are statewide services or specific to regions as stated in the relevant agency plan. Appendix 1 should be read in conjunction with the agency plan produced by the relevant department.

DEPARTMENT OF HEALTH *DRUG AND ALCOHOL ACTION PLAN*

Prevention and Early Intervention

The Department will:

- Reduce the prevalence of risky alcohol consumption and other drug use in women of child-bearing age;
- Increase community capacity to prevent co-occurring mental illness and AOD use. Reduce the harm associated with co-occurring mental illness and harmful AOD use;
- Implement state-wide youth and community AOD education programs through local metropolitan and country health services eg. implement brief intervention and tobacco screening for patients and clients of metropolitan health services;
- Reduce the incidence of intentional and unintentional AOD related injuries;
- Reduce the incidence and transmission of HIV, hepatitis C and other bloodborne viruses and minimise the personal and social impact of HIV and other BBVs; and
- Review all Office of Aboriginal Health AOD contracts to ensure inclusion of prevention and early intervention, where appropriate.

Treatment and Support Services

The Department will:

- Support access for clients of Community Health Services to AOD programs;
- Increase community capacity to prevent co-occurring mental illness and AOD use and reduce the harm associated with co-occurring mental illness and harmful AOD use;
- Provide appropriate treatment and support services for patients and clients of health services and build capacity of generalist health services and their staff to provide quality treatment and support services;
- Assist in more widespread provision (decentralisation) of appropriate treatment for drug use problems by medical practitioners and community pharmacists; and
- Review all Office of Aboriginal Health AOD contracts to ensure inclusion of treatment and support, where appropriate.

Coordination

The Department will:

- Ensure coordination of service provision and referral between community and child health services and other service providers;
- Ensure coordination of services with respect to mental health, within Department of Health (DoH) and between DoH and other government and non government organizations;

- Create more effective linkages between Divisions of General Practice, GPs and the drug and alcohol sector, for the deliver of AOD services;
- Implement DoH and other drug related policies through coordination within and between health services;
- Work with relevant key agencies to reduce the number of people who inject drugs; and
- Develop and foster key strategic partnerships to reduce the incidence of alcohol and drug related harm in the indigenous community.

DEPARTMENT FOR COMMUNITY DEVELOPMENT *DRUG AND ALCOHOL ACTION PLAN*

Prevention and Early Intervention

The Department will:

- Coordinate the development of an across Government Early Years Strategy;
- Implement Family Strength initiatives with funding of \$10 million over 5 years, commencing 2001/02;
- Work with the Children and Young People in Care Advisory Committee and other stakeholders to reduce the rate at which children and young people enter out of home care as a result of parental drug and alcohol use;
- Launch a grants program and handbook in recognition of the needs of young people for public space in regional areas;
- Promote participation and inclusion of young people in public spaces through support and expansion of the Hillarys Youth Project Enquiry;
- Promote greater involvement of children and young people in policy development through funding to the Create Foundation to advocate and represent the concerns of children and young people and continue to support the Youth Advisory Network; and
- Undertake and support research that builds the capacity of service providers to work with children and young people through participation in the National Steering Committee of the National Youth Affairs Research Scheme.

Treatment and Support Services

The Department will:

- Work with other agencies to implement the State Government's response to the recommendations of the Inquiry into Response by Government Agencies to Complaints of Family Violence and Child Abuse in Aboriginal communities;
- Support grandparents and other relatives caring for children full time as a result of family crisis such as parental drug and alcohol use by providing \$100,000 funding over three years for grandparents support service;
- Work with other agencies to implement the State Government's response to the recommendations of the State Homelessness Taskforce;
- Review and update the service delivery protocol developed between the Supported Accommodation and Assistance Program and drug and alcohol services; and
- Continue to work with local services including the Local Drug Action Groups to improve service collaboration for families affected by drug and alcohol use.

Other Initiatives

The Department will:

- Develop a range of workforce development initiatives to build the skills of Departmental and community sector staff, particularly in relation to drug and alcohol awareness and working collaboratively with other agencies;
- Improve its capacity to identify and manage cases involving drug and alcohol use by introducing new information technology through the ASSIST project; and
- Update the Department's drug and alcohol policy in collaboration with other stakeholders.

DEPARTMENT OF HOUSING AND WORKS *DRUGS AND ALCOHOL ACTION PLAN*

Prevention and Early Intervention

The Department will:

- Provide a collaborative approach in conjunction with the Department of Justice (DoJ) aimed at reducing the cycle of offending through the Aboriginal Cyclical Offending Program;
- Develop protocols with aims to improve pathways on access for public housing through Priority Housing, Exit Point Housing and Bond Assistance;
- Provide support to tenants who are experiencing difficulties in their tenancy through the Supported Housing Assistance Program;
- Upgrade accommodation, training and employment opportunities through the Management Support Program;
- Reduce the rent for the tenant/s whilst undergoing treatment/rehabilitation through the Absentee Tenant Minimum Rent Policy;
- Coordinate and facilitate across Government agencies in the case management of Aboriginal families and individuals through the Indigenous Families program;
- Coordinate the provision of 27 units of accommodation for persons exiting the prison system;
- Provide temporary housing for the homeless or clients in immediate crisis through the Crisis Accommodation Program;
- Coordinate a Transitional Housing Program;
- Continue to provide the Aboriginal Tenancy Support Service (ATSS);
- Support the Stronger Families Program to assist families through Safer WA and involve intersectorial collaboration in dealing with families having problems in the community;
- Provide permanent long term housing for homeless young people and specifically target homeless youth between the ages of 15 and 17 through the Youth Externally Supported Housing Program (YES) and Fremantle Regional External Supported Housing Program (FRESH);
- Improve coordination and collaboration by Government service providers as part of the Government's response to the Gordon Enquiry; and
- Continue the Homelessness Taskforce to put homeless people in contact with available accommodation options.

DEPARTMENT OF INDIGENOUS AFFAIRS *DRUG AND ALCOHOL ACTION PLAN*

Prevention and Early Intervention

The Department will address the need for:

Capacity Building

In Western Australia, the DIA sees Capacity Building as part of an holistic approach to Indigenous advancement and therefore has endorsed a two-pronged approach. DIA sees the need for:

- Building the capacity of the Indigenous community to determine and manage positive change;
- Capacity building in government that sees them engaging with the Indigenous community, in partnership approaches, to achieve agreed outcomes.

There is a focus on a community driven development approach to Capacity Building, with neither of the above being achieved in isolation from the other. This focus hinges on effective engagement and participation of Indigenous people in all decision making that affects their lives.

Patrols

Funding is currently provided to twenty-one (21) community patrols throughout Western Australia (WA). Patrols provide strategies at the community level to deal with and respond to a range of social problems experienced in Aboriginal communities. They aim to reduce contact between Indigenous people and the criminal justice system. Patrols are operated by the community and are supported by DIA and other agencies.

Community By-Laws

DIA administers the *Aboriginal Communities Act 1979* (ACA) that enables Indigenous people to establish by-laws that govern conduct and access on community lands. DIA works with other key agencies and stakeholders to support implementation of Community By-Laws.

Treatment and Support Services

DIA does not provide any treatment services but supports Indigenous communities to access services.

Law, Justice and Enforcement

DIA does not provide any law, justice and enforcement services but supports Indigenous community to access services.

DEPARTMENT OF EDUCATION AND TRAINING *DRUG AND ALCOHOL ACTION PLAN*

Prevention and Early Intervention

The Department will:

Curriculum Strategy

- Identify and review existing curriculum related to drug and alcohol use and the extent to which this is delivered across the education and training sectors; and
- Identify and review opportunities where curriculum related to drug and alcohol use may be embedded into units of competency delivered across the VET sector and as part of school-based curriculum related to the outcomes of the Curriculum Framework and the school contexts.

Information Strategy

- Identify opportunities for developing an integrated educational awareness strategy focussing on drug and alcohol use in the workplace, on-campus and in the school community; and
- Through central, Regional Organising Committees and In Touch training, the role and access to CDSTs to students experiencing problems associated with drug use to be promoted to school staff.

Professional Development

- Review existing professional development strategies for teachers and VET trainers in relation to drug and alcohol use;
- Identify further professional development opportunities for teachers and VET trainers including:
 - referral processes;
 - drug and alcohol use in the workplace; and
- Identify opportunities for supporting upskilling/reskilling of employees of other government agencies.

Policy and Program Development

- Review existing drug and alcohol policies and update/enhance as required
- Identify opportunities for policy and program development for key target groups, specifically:
 - culturally and linguistically diverse groups (CALD), including multicultural and indigenous communities;
 - apprentices and trainees; and
 - 15-19 year olds.

School Drug Education Project (SDEP)

- SDEP will use DAO Regional Profiles to strategically resource regions within WA;
- SDEP will continue to manage the School Community Grants Scheme which gives schools an opportunity to receive funding to support their local prevention programs;
- SDEP will provide the Leavers Live handbook to communities interested in supporting Year 12 Leavers;

- SDEP will provide training and support for school staff in drug education and with the In Touch: Managing Drug Issues in Schools resource through:
 - Central training;
 - Regional training

Treatment and Support

- Review and enhance referral services currently in place across the education and training sectors; and
- Review and promote information available on drug and alcohol use to students and staff across the education and training sectors.

WESTERN AUSTRALIA POLICE SERVICE *DRUG AND ALCOHOL ACTION PLAN*

Prevention And Early Intervention

The Service will:

- Commit to the delivery of quality Youth oriented alcohol and other drug education and awareness through the GURD strategy by:
 - Promoting the GURD Youth alcohol and Drug Education Strategy throughout the State; and
 - Enhance the GURD Strategy within the community through further youth based interactive activities that also target parents and the community.
- Maintain a focussed approach to supporting local communities- empowering parents through the ongoing provision of community based parent education and other initiatives by:
 - Enhancing the ongoing support for local communities by the provision of well-resourced alcohol and other drug awareness sessions; and
 - Increasing parental understanding and awareness of Alcohol & Other Drug Services available at a local level.
- Implement statewide drug diversion programs aimed at the diversion of eligible offenders into areas including education and or treatment by:
 - Monitoring the proposed legislative changes to the Misuse of Drugs Act by the introduction of the Cannabis Control Bill 2003 and
 - The impending introduction of All Drug Diversion as of 1 January 2004.
- Facilitate an improvement in the organisational capacity to develop protocols and develop practices that allow for a more collaborative working relationship with people and communities affected by drug and alcohol use by:
 - Committing to broadening the understanding of the principles of “Harm Reduction” within the policing environment; and
 - Providing for recreational alternatives for young persons i.e. “Blue Light Disco’s, PCYCs and GURD activities”.
- Commit to the reduction of harms associated with the use of alcohol at a State and Community level by:
 - Demonstrating an ongoing ability to promote the responsible sale, supply and marketing of alcohol; and
 - Committing to assist local government, sporting bodies and other agencies with implementing responsible alcohol and drug policies.

Law, Justice And Enforcement

The Service will:

- Reduce the supply of illicit drugs and other substances into and across our state and local community borders by:
 - Developing integrated approaches to assist in the detection of illicit drugs crossing our state and community borders; and
 - Promoting an ongoing commitment, through intelligence based policing to the ongoing detection and dismantling of clandestine drug laboratories.

- Reduce the illegal supply of alcohol within our communities by regulating the sale, supply and consumption on premises in which liquor is sold by:
 - Assisting with the establishment and maintenance of local community Liquor Accords; and
 - Providing an ongoing commitment, through intelligence based policing to the ongoing reduction of alcohol related crime at a community level.
- We will assist local communities by introducing appropriate control over alcohol availability and trading hours

Coordination

The Service will:

- Develop a realistic and co-ordinated approach to referral between police, community and alcohol and other drug services;
- Research the opportunity of an innovative and more collaborative approach to the collection and sharing of statistical data; and
- Create more effective linkages between WAPS and other Law Enforcement Agencies and Regulatory Bodies.

DEPARTMENT OF JUSTICE *DRUG AND ALCOHOL ACTION PLAN*

The Western Australian Drug and Alcohol Strategy, endorsed in Parliament in August 2002, provides the framework for the Justice Drug Plan, which will see a significant increase in services to prevent and reduce drug-related harms.

The justice system has traditionally been regarded as the "end of the line" for criminals with drug problems. This must change, with the Department of Justice becoming a critical, proactive player with a comprehensive range of prevention and treatment strategies to tackle the issue.

Prevention and Early Intervention

- Introduce harm reduction measures to reduce the prevalence of blood-borne communicable diseases
- The delivery of a comprehensive transition program for offenders will prevent further alcohol and drug related offending.

Law, Justice and Enforcement

- Expand the number of drug detection dogs in prisons by adding four dogs and four dog handlers. This will bring the total team to 15 dogs and 13 handlers
- Deploy drug detection dogs to prisons where drug testing shows higher levels of drug use
- Deploy a permanent drug detection dog at Bandyup Women's Prison
- Incrementally introduce multi-purpose response dogs as an alternative to single purpose dogs
- Double the random drug testing of offenders in the metropolitan maximum-security prisons from twice a year to four times a year
- Introduce instant urine tests for preliminary testing at all prisons

Treatment and Support

- Introduce a comprehensive pharmacotherapy program including methadone, Buprenorphine and Naltrexone, enabling up to 150 offenders to be engaged in this treatment at any time
- Expand treatment programs for high-risk offenders with an additional 15 programs per year, catering for an extra 150 offenders
- Introduce two new drug-free units in WA prisons, with one additional unit in a metropolitan prison and one in a regional prison
- Investigate the efficacy of a prison-based therapeutic community
- In partnership with government and non-government agencies, introduce a comprehensive transition program for offenders re-entering the community to address health, housing, drug programs and counselling, training, employment and education needs.

Making the Plan Work

- Establish a comprehensive monitoring framework to measure the success of the key strategies.

APPENDIX 2

STATEWIDE DRUG AND ALCOHOL OFFICE ACTIVITY

The Drug and Alcohol Office (DAO) provides the following key programs and activities at a statewide level:

Prevention

Drug Programs

- Drug Aware Program - including campaigns, a website (www.drugaware.com.au), the Pharmacy Project and the Business Project;
- Night Venues Project - including resources and merchandise;
- Tertiary Partnerships Project - support of orientation days and health weeks with merchandise; and
